Design your own paint scheme on the drawing below.
Indicate color choices, fade and masking locations, etc.
Indicate placement of your name, additional water bottle
mounts and dropout eyelets, etc.

PERSONALIZED LETTERING:

Name: _____

Typestyle: _____

Color: _____

GENERAL INSTRUCTIONS:

When sending us your frame for refinishing and/or repair, UPS is your best bet carrier. Be sure to block your front and rear dropouts to prevent damage to your forks and stays. Remove all the components you can as we don't accept frames with components beyond bottom brackets and head sets.

Our standard colors can be found by visiting your local "automotive refinishing supply" dealer who carries DuPont products. Just have a look at their standard Imron® "Fleet Selector" color chart. We offer many other finishes as well, too many to fit in one color chart or even for one paint dealer to stock. These other finishes include candies, pearls, neons, "Traveling colors," smokes, etc. Included with our paint jobs is a full glass beading, priming with Ditzler DP-LF, basic putty work (if needed), a single Imron® color, four clear coats with fine sanding before the last clear coat. Clearing of decals involves an extra charge which varies depending on how "buried" you want the decals to be. We will not return your frame set COD. You may prepay by check or supply your credit card number. Upon completion of this order form, send it with your frame to:
